Coburn introduced a bill prohibiting Presidential electors in the States to be formed of the Territories of the late rebel States, except Tennessee. Referred

On motion of Cobb, the President was requested to communicate the action of any parties intending preparations on account of the Maximilian party for an invasion of Mexico, and whether any steps has been taken to prevent the sailing of such expeditions

Butler denounced the statement of the *National Intelligencer* yesterday, that the rebel Commissioners of Exchange had offered to deliver without an equivalent, two thousand prisoners of war, sick and wounded, which offer was refused by Butler He characterized all the allegations in the article as untrue.

The rules were suspended, and Julian offered a resolution declaring the doctrine advanced in the President's message, of the 15th that the abrogation of the rebel States binds the nation to pay their debts, at war with the principles of international law, and a direct stab at the national credit, abhorrent to every sentiment of loyalty, and pleasing only to the vanquished traitors Passed by 100 to 18, a strict party vote.

The House non concurred in the Senate amendment to the bill relative to deserters, and asked for a Committee of Conference

The Senate bill for the further securing of equal rights in the District of Columbia, was slightly amended and referred to the Judiciary Committee

Selye offered a preamble and resolution in regard to the recently reported organization of expeditions against Mexico, requesting the President to issue a proclamation to prevent them Referred to the Committee on Foreign Affairs.

Stevens desired to introduce a bill to pay mileage of the present session. The House refused to suspend the rules to receive the bill

Covode, as a question of privilege, offered a preamble and resolutions, reciting that it is represented that the President had pardoned S F. Cameron, of the rebel army, one of the most notorious violators of the laws of war, at the request of the counsel of Surratt, thus showing sympathy with the men who murdered President Lincoln

The Judiciary Committee is instructed to examine and report to the House the first week of the next session, all the evidence taken on the impeachment case After debate the resolutions were adopted and the preamble rejected.

Sumner called up his bill providing that no person shall be disqualified for holding office on account of race or color. Passed—ayes 25, noes 4.

On motion of Pomeroy, the bill providing for the appointment of Commissioners to select Indian reservations, was taken up.

Harlan did not believe that Congress had authority to appoint Commissioners

Sherman thought the only true solution of the Indian difficulties, was to absorb them in the general population.

Pomeroy coincided in Sherman's views He did not believe it possible to locate the Indians on one reservation or two There would be interminable wars between the tribes He believed there should be several reservations

Howard favored temporary action to settle existing difficulties. It would be time enough next winter to settle the great question of their final disposition

Adams and Morrill condemned the Indian policy of the Government as injurious and oppressive. It would be impossible to absorb the Indians into the white population. That meant extermination Thayer did not advocate extermination. It was the duty of Congress to secure peace if possible Speaking for the people on the border, he said nothing was so abhorrent as Indian war

A message came from the House, announcing its nonconcurrence in the bill relating to deserters and asking a conference committee The Senate adhered to its amendment. Pending the discussion on the Indian bill, the Senate adjourned.

Religious Intelligence.

The venerable Joel Hawes, D. D., died at Hartford recently, in his 78th year. He was the oldest Congregational minister in Connecticut, and probably the oldest clergyman of any denomination in the State.

The Methodists intend to build a large monumental church at Washington, to cost $200,000. Pews will be set apart for the President and his Cabinet, the Judges of our courts, Generals of our army, and other distinguished persons. Seats, also, will be provided for the different States, so that strangers from every section of our extended republic may feel that they have a place to worship when visiting the metropolis

A new Roman Catholic Cathedral, said to be a magnificent building, was consecrated at Pekin in January, and the same month the corner stone of a new Anglican church was laid at Kinkinang by the British Consul. A letter from Pekin says that religious temples for different sects are erected in close proximity to each other—Protestants, Catholics, Anglicans, Greek schismatics, Buddhists, Mohammedans, Disciples of Confucius, live side by side with perfect good understanding.

The missionary operations of the Methodist Episcopal church are conducted on a large scale. Appropriations for the current year in support to the mission establishment amount to $1,030,973. The number of foreign missionaries employed is as follows: Siberia, 28; South America, 9; China, 46; Germany, 58; India, 214, Scandinavia, 21; total, 281. The number employed in domestic missions is 221, chiefly among the Germans.

A convention of Jews has been in session at Philadelphi, nearly every synagogue in the United States being represented. It was resolved to operate in the removal of the Jews of the Turkish Provinces and the Barbary States to Palestine, and to encourage the developments of agriculture and arts there. A paper read by Rev. Mr. Lesser claimed that the Fallachiaux tribes of Abyssinia, and the people of the interior of China, are the lineal descendant of the lost tribes. As efforts are making to convert them to Christianity, a messenger is about to be sent out by the Universal Israelitish Alliance of Paris to counteract the movement. It was resolved to co-operate in measures for removing the Jews of Servia, Moldavia, Wallachia, Roumania and the Barbary States, to Palestine and colonize them there. It was also decided to establish a Jewish college at Philadelphia.

AMERICAN HOTEL IN LONDON.—Colonel John W. Forney, in a European letter, describes a Hotel in London—the Langham—conducted by a Philadelphian named Sanderson, who was an officer in the Union army during the late civil war. It is gotten up on the American system of hotel keeping, and so superior is this system to the English style that Englishmen themselves patronize it largely. The structure cost $1,500,000 in gold. Colonel F. thus describes some of the characteristics of the institution:

It is colossal in size, palatial in appearance and built in the Italian style. The water consumed on the premises, amounting to 25,000 gallons daily, pronounced to be the purest in London, is supplied from the artesian well on the premises, pumped by two engines of 14 horse power each. The principal hall, which is reached through a massive stone portico, is fifty feet square. The imposing structure is five stories high. The dining hall, or coffee-room, as it is called, is one hundred feet in length by forty in breadth. There are in all thirty-two drawing-rooms. The kitchen, which is one of the largest in the kingdom, is seventy-five feet by fifty nine, and perfect in all of its arrangements. Pages, instead of man-servants, do the errands in the house, while "commissioners," composed of retired veterans, are stationed near the hotel, who for a consideration will run with a message, chaperon a young lady or wait upon an old one, attend to the baby, and do a variety of chores handily and cleverly at the rate of sixpence per mile or per hour. These messengers are dressed in uniforms as gorgeous as major-generals, and are as polite as dancing masters. The prices at the Langham are about the same as at the Continental, certainly not less. I pay for my room, a dollar and a half daily; yet with the most moderate breakfast and dinner, I cannot bring my net expenses below four dollars, and this exclusive of the incessant calls for extra compensation from servants of all descriptions.

NEW ANECDOTE OF PRESIDENT LINCOLN.—The Portland (Me) *Press* relates the following:

The following story, which we vouch for as true, has never before appeared in print:

M. was a young man of clerical appearance and modest demeanor, who enlisted as a private in one of our Maine regiments. He was promised the position of Chaplain, and it was this consideration that induced him to enter the service But military commanders who are raising their men, undergo a certain metamorphosis when at length the covered straps adorn their shoulders, precisely similar to that which aspirants for office have so often and so tearfully bewailed in members of Congress when snugly ensconced in their official paradise. So it happened that poor M, with all his powers of exhortation, was compelled to shoulder a musket. This he found irksome in the extreme, and seeing no hope of relief by application to any subordinate official, he concluded to apply to the President. Nothing but utter desperation could have induced him to take this step, and the idea of approaching the Chief Magistrate, filled his soul with unpleasant apprehensions. Therefore he came into Lincoln's presence in a state of trepidation that deprived him of the power to give a very lucid explanation of his wishes and purposes.

The President received him very kindly, however, and desired him to state his business. M., with a palpitating heart and indistinctive utterance, managed to stammer out that "he would like a Chaplaincy in some hospital."

"Very well," said Lincoln, "can you name any hospital in which there is a vacancy?"

"No," replied M, "I haven't been able to hear of any; but I didn't know but you might happen to think of one."

"I suppose you know," said the President, assuming that expression of countenance which imparted to his pleasantry all that is kindly and genial in the humor of the great masters of that accomplishment, "that when a young man wants to get married, he always finds a girl before coming to the parson."

THE BANK OF CALIFORNIA —The present Bank of California in San Francisco has just been housed in the magnificent structure built for its reception on the corner of California and Sansome streets, the site of the old Tehama house. The editor of the American *Flag* in speaking of the new building says:

We have heard some say that it had been better constructed of marble. On the contrary, marble is commonplace, and any very rich man can have a marble home. At Columbia in this State, they build fences and underpin miners cabins with fine marble. But nowhere, except at Angel Island, can the fine blue stone be found, which makes the bank of California so distinctive and peerless in its original beauty. That fine-grained stone, chiseled with the finish and delicacy of a parlor mantle piece, is what makes the structure a literal temple which the divinest gods of mythology would have delighted to dwell in.

WOMEN TYPE-SETTERS.—The *Printer's Circular* says.

Girls who are employed in type foundries to set the type into line preparatory to "dressing" are styled "setters." Happening into the setting-room of a foundry a few days ago, we were curious enough to ask a girl who appeared to be expert at picking up the little bits of metal, how many sticks she could set in a day. The answer was "about 64 of m's, and about 32 of i's." Upon counting we found that there were about 39,336 m's in 64 sticks, and about 44,352 i's in the 32 sticks of that letter. In the latter case the girl's hand moved to and from the stick 88,704 times in performing a day's work. The type was agate, and the girls received two cents per stick for setting it up.

The young masters and misses of Petersburg, Va, have formed themselves into a "Jeff. Davis Hoop-rolling Club." We shall doubtless next hear of the "Horace Greeley Croquet Organization."

Newspaper Competition.

Were we to judge of the financial condition of several Oregon newspapers by their whining tone and frequent appeals to the "Democracy" for help, we would have a right to suppose that they are uncomfortably low down in the vale of poverty. Almost every week we find some of them scolding and beholding their party friends for not manifesting more interest in their behalf. Perhaps the *Herald* utters a greater abundance of pitiful complaints than any other one of them. It is continually making a parade of its sacrificing efforts in behalf of its party, and scolding and objurgating because they are not appreciated or requited. Two capital charges are laid against the Democracy of Oregon. First, that they care so little about newspapers in general, and Democratic newspapers in particular; and secondly, that some of them prefer to take the WEEKLY OREGONIAN at three dollars a year rather than pay five for the *Herald*. As for the first charge, that is easily explained. As a general thing Democrats are not great readers of newspapers. If they were, many of them would soon cease to be Democrats. The *Herald* virtually admits this when it says that the Republicans owe the ascendency of their principles to the wide dissemination of their publications. The second charge which that paper makes against its Democratic friends, is capable of an equally simple explanation. The WEEKLY OREGONIAN is by far the best newspaper in Oregon. With the supplement which is published each week, it contains fully twice as much matter as the *Weekly Herald*. Aside from politics, it publishes an immense amount of matter of general and special interest, and invariably gives from one to three days later news than any other paper. That any one should prefer to buy such a paper as this rather than to purchase an inferior article for almost double the money is not surprising. We are aware that there are some Democrats who take the OREGONIAN. We regard it as an evidence of their good sense that they prefer a good newspaper at a low price to a poorer one at nearly double the sum. When Democratic papers complain that their party friends often take Republican journals in preference to those of own party such complaint is an acknowledgment of the superiority of Republican papers. The *Herald* grumbles because Republican journals have crowded Democratic papers out of the field. There is no need of searching far to discover the reason.

The condition in which the *Herald* pictures itself suggests an anecdote and furnishes the application. A young man who greatly desired wealth was visited by his Satanic Majesty who tempted him to dispose of his soul for eternity if he could be supplied on earth with all the money he could use. The bargain was concluded, and the young man began to live most extravagantly and to squander all the money he could. Still he could not reduce his pile of gold. One expedient after another failed. At last he started a newspaper. The plan succeeded! The money gave out and the newspaper went down, but the soul was saved. The strong probability is that it was a Democratic newspaper.

Surratt, the Assassin.

The greatest farce of the age is the effort that is now making to prove this assassin innocent by the testimony of his rebel accomplices. A rebel General who acknowledges that he was in the secret service of the Confederacy, alternating between Richmond and Canada and mixed up in the schemes of the conspirators who hovered about our Northern border during the rebellion, swears that Surratt is entirely guiltless. Other witnesses who were in the same honorable service, that is to say, who were connected with the murderous rebel plots that had their birth in Richmond and Canada, and who no doubt were a part of the banditti that was engaged in the attempt to release the rebel prisoners confined in the North and set them to massacring the inhabitants, who attempted to burn Northern cities and to introduce plagues among the people,—these witnesses acknowledging that Surratt was one of their number appear in court and swear that he had no part in the assassination. The testimony of respectable and credible witnesses, so far as it is published, is conclusive as to his guilt. Here is the kind of evidence which there is an attempt to invalidate by introducing the testimony of this gang of conspirators. The statements we give are extracted from the proceedings had in Court on the 19th and 20th of June:

Wm. A. Cleaver, keeper of a livery stable, testified that Surratt, in a conversation with him, said he and Booth had bloody work to do; they were going to kill the damned old scoundrel, Lincoln. Surratt at the time pulling a pistol out and laying it on a desk in the stable. Witness also saw Surratt on the evening of the 14th of April, previous to the assassination. Booth and Surratt transacted their livery business with him.

Daniel C. Reed swore he had known the prisoner from quite a boy, and saw him on Pennsylvania avenue at half past two o'clock the day of the assassination. I have had a nodding or bowing acquaintance with the prisoner as he passed; there was a recognition by both. His dress on that occasion attracted my attention. His dress looked of country manufacture was got up in very good style; had upon his feet a new pair of brass spurs, with large blue rowels, and evidently were bran new. He wore on his head a felt hat, not very low crowned, wide brimmed, hat was straw colored; he was passing up the avenue at an ordinary pace.

Samuel A. Rainey testified to keeping a stable in company with Wm. E. Cleaver, in Washington, in 1865. He knew Surratt. Saw him at the stables several times.

Susan Allen Jackson, colored, testified Surratt was at her mother's house in Washington on the evening the President was assassinated, and identified the prisoner. She had never seen him since that time till he was brought into Court.

John Lee, now residing in Mississippi, formerly a detective on Col. Baker's force, testified to seeing a man he took to be Surratt on Pennsylvania Avenue, near Willard's Hotel, on the night of the 14th of April, 1865; had seen him before; recognized prisoner as Surratt; to the best of witness' knowledge the prisoner at the bar was the man he met. Surratt was walking at an ordinary gait. I was walking fast. Also testified to finding, April 15, 1865, in room 126 Kirkwood House, where Vice President Johnson resided, a coat containing a spur, a book, three pocket handkerchiefs and slick black Liquorice book, [produced and indentified]. Also found between the sheet and mattress of the bed a large bowie knife with red cover on it, which was shown to President Johnson and Secretary Stanton and deposited with Judge Holt.

John L. Tippett testified—He heard Mrs. Surratt in 1863 say she would give any one a thousand dollars if he killed Lincoln. This was said in the presence of John. The latter, when there was a Union victory, said, "Damn the Northern army and leaders thereof; they all ought to be sent to hell." This was when witness carried the mail from Washington to Charlotte Hall.

Joseph Dye, a recruiting sergeant, now stationed in Philadelphia, testified that on April 14th, 1865, witness belonged to Battery C, Pennsylvania Artillery, and was stationed at Camp Barry, about two miles from Ford's Theatre. Witness and Sergeant Robert Cooper were in town on the night of the murder. At the time of the murder was in an oyster saloon, went there from Ford's Theatre at 9:30 o'clock, Sergeant Cooper was in company; witness was sitting upon some plank in front of the theater and saw Mr. Lincoln coming there. The street in front of the theatre was lighted by a lamp; while witness was sitting there, Cooper was walking up and down, while witness was there, parties came out of the theatre and went into the saloon. Before they came down, witness overheard a conversation there. Witness knew John Wilkes Booth. Booth was one of the persons entering into that conversation. The first that appeared was Booth, conversing with a low villainous looking person at the end of the passage. It was but a moment before another person joined them, and entered into conversation. This person was neatly dressed. The crowd then came from the theatre, and Booth remarked, "I suppose he will come out now," as witness supposed, referring to the President. The parties in conversation then arranged themselves where the President was to pass and watched for his appearance. He did not come, and one of them examined the carriage and Booth went into the restaurant remained there long enough to take a drink. He came out and stepped from the street into the passage leading to the stage. He appeared in a moment again. The party above mentioned, as neatly dressed, stepped up and called the time to Booth from a clock in the vestibule. As soon as he called the time he moved up Tenth street to H street. It was then witness thought something was wrong. Witness carried a revolver and had a handkerchief wrapped around it, and his suspicions were so aroused that he undone the handkerchief from about the revolver; it was not long before the well dressed man came again from the direction of H street; the man stood in front of the Theater, and the light shone full in his face; there was pictured in his countenance great excitement and exceeding paleness, and he told them for the third time the hour—that it was ten minutes past ten o'clock. Witness swears that at this time it was ten minutes to ten o'clock. Witness saw the man distinctly.

Question, by Mr Pierpont. Did you see the man distinctly? Answer. Very distinctly.

Q. Do you see him now? A. I do, sir, (pointing to Surratt,) there he sits. I have seen his face frequently in my sleep, it was so very pale. I could not forget it.

I have not seen him since until lately, and the man I then saw was John H. Surratt the prisoner at the bar. Surratt moved toward H street. Booth entered the front of the theatre. Sergeant Cooper and I then went to the oyster saloon. We had not time to eat an oyster when we heard of the murder. Went immediately to H street toward Camp Barry.

Sergeant Cooper testified—He was with Sergeant Dye on the night of the assassination, and heard one of the men in front of the theatre call out the time, "ten minutes to ten;" there was nothing which specially excited his suspicion. He corroborated Dye's testimony; that while he and Dye were returning to Camp Barry, at H street, No 641, a middle aged lady raised the window and asked "what was going on down town?" Witness and Dye told her the president had been shot by Booth.

The following testimony refers to the flight of Surratt after the assassination.

Charles Blum, Clerk of the Welden House St Albans, testified—Was on the watch at the depot on the night of April 17th, 1865. Two men came into the depot that night, one tall, the other short. The tall man asked to sleep in the depot; he did so, and I called him at four o'clock Tuesday morning, April 18th. After the man went out I picked up something where the tall man was sleeping. [A white cambric handkerchief was shown and examined. Witness recognized the handkerchief as the one he had picked up where the tall man was lying. The handkerchief bears the name of J. H. Surratt.] After I picked up the handkerchief I discovered the name. Then showed it to the agent of the railroad company. Never saw the man afterwards.

LONDON, July 17.—The great naval review off Spithead, in honor of the visit of the Sultan of Turkey, was one of the most magnificent spectacles that has ever been witnessed in English waters. A very high wind tended to increase the interest and excitement of the occasion, although it interfered with the comfort of the spectators. The squadron numbered eighty vessels, including eight iron-clads, three turret ships and a number of large frigates. The squadron mounted eleven hundred guns, and the naval portion alone represented a capacity of one hundred and six thousand tons, with a nominal power of twenty-three thousand horses. A thousand vessels filled with spectators witnessed the grand pageant. The Queen was present in the royal yacht. The Sultan and sovereign of Egypt, with their suits, were in separate yachts. The Prince of Wales and both houses of Parliament, the Lords of the Admiralty and other members of the Government, were also present. The shores of Gosport and the Isle of Wight were lined with myriads of people witnessing the evolutions. A mock battle formed a part of the exercises. A royal salute was fired and the yards of all the ships were manned. At night the entire squadron was illuminated and presented a very picturesque appearance.

The deceased was a native of Scotland.

Judge Rix, of the Police Court, yesterday sentenced Alonzo Fink for counterfeiting the trade mark of imported champagne, to pay $300 or undergo 150 days imprisonment. Gustave Valentine, on the same charge, was fined $100 or 60 days imprisonment. The latter being an employee was not fined so heavy as the principal.

The Howard Presbyterian Church was crowded last evening—every seat being occupied—by a congregation assembled on the occasion of farewell services connected with the departure of Rev Mr. Earle. The platform was occupied by Drs. Scudder, Ells and Cheney, Rev. Messrs. Benton, Sawtelle, Martin, of Virginia City, Earle and others. Some twenty other clergymen were present and seated with the congregation.

A. Hirschfelder, of the firm of Hirschfelder & Co., on Montgomery street, picture and frame dealers, has been missing since 11 o'clock yesterday. He was last seen on Sansome street, at Kosminsky's cigar store, opposite the American Exchange. There is nothing in the circumstances to warrant any suspicion that he is voluntarily absenting himself from his business and family.

The suit of the United States against 300 cases of champagne wine claimed by Messrs. Locke & Montague, was settled yesterday on motion of Dana Lake, U. S. Prosecuting Attorney, by claimants paying the sum of $5,150 in gold coin, in accordance with the stipulation made on the 4th day of May, 1864.

The District Attorney yesterday filed, in the 12th District Court, a complaint against the steamship *Continental*, of the California, Oregon and Mexico Steamship Company and S. K. Porter, for alleged violation of the State passenger act, alleged to have been committed by landing 21 passengers at this port who were not citizens of the United States, contrary to the provisions of the statute. He claims judgment in favor of the people of the State of California for the sum of $21,000.

A boy named James Frederick Spath fell from a 1a cony at 16 Everett street. Boy died of the injuries two hours afterwards.

The steamer *Pacific*, which left San Pedro, July 16th, arrived here early this morning.

Money Market.

Gold opened in New York this morning at 130⅞. Sterling, 110⅛.

Legal tenders are quoted at 71½, buying, and selling at 72¼.

The steamships *Oriflamme* from Portland, and *Idaho* from Victoria, arrived this morning. The former brings $75,000, and the latter $103,000 in treasure.

California wheat was quoted in Liverpool on the 7th inst., at thirteen shillings and six pence per cental.

The annual meeting of the stockholders of the Savage Silver Mining Company was held at the office in this city yesterday, when the following named gentlemen were elected trustees for the ensuing year: Alpheus Bull, Thos Bell, M Mayblum A H Rose and A Haywood. At a meeting of the above trustees, Alpheus Bull was chosen President, and E B H dimes was elected Secretary.

Markets.

Flour—The shipment to New York, by the Panama steamer this morning, consisted of 1,262 bbls, valued at $8,136. City brands unchanged.

Wheat—$1 75 for good milling; Santa Clara, $1 80 per 100 lbs.

Barley—$1 22½.

Potatoes—$1@1 22½.

Wool—The Panama steamer this morning carried 219,-479 lbs in transit to New York.

Shipping.

Arrived—July 18th, British ship *Centurion*, 45 days from Hong-Kong, schooner *Fayaway*, 4 days from Shoalwater bay.

Sailed—July 19th, steamer *Golden Age*, Panama.

GARIBALDI.—In a singular letter lately addressed to the English Minister at Florence, Garibaldi formally sets forth his title to the governorship of Rome, to which office he says he was elected by the Roman people in 1848–49, and from which he denies that he has ever been legally deposed. In the eyes of Garibaldi the Pope is a mere usurper, and his position as a temporal sovereign logically untenable.

STATE ITEMS.

A letter from Tillamook to the *Advocate* states that on the morning of the 4th, word was received (at Tillamook) that two of the bodies of the persons recently drowned at the mouth of the river had been found. Parties went immediately for them. They were found fourteen miles distant from the place where they perished. They proved to be the bodies of Capt. Kinchley and E N Stallcup.

From the *Advocate* we learn that the camp meeting near Noely, on Rock Creek, Clackamas county, which commenced on Thursday of last week, is still in progress. Very large congregations have been in attendance. The religious interest, up to Tuesday morning, when the presiding elder left, was most excellent and increasing. There had been perhaps a score of conversions. Revs. J D Driver, C Alderson Prof Powell, and two or three local preachers were in attendance, giving efficient aid.

The following note, addressed to us, by Mr. Wade, Register of the Land Office at Oregon City, explains itself: I desire to give notice through your columns that the plats of townships 2 north range, 35 east, and 3 and 4 north ranges, 34 and 35 east, have been withdrawn from this office by direction of the Commission of the General Land Office, "Until the limits of the Umatilla Indian Reservation shall have been surveyed and the areas on both sides of Wild Horse creek calculated and expressed upon the plats, in order that the Reservation may be protected from sale."

A GOOD HIT.—When acting President Johnson vetoed the reconstruction bill, he stated as an objection that the act would place "all the people of the States under an absolute military despotism;" and again, "that the power thus given a commanding officer is that of an absolute monarch." The St. Louis *Democrat* remembering these arguments, imagines a case like this: Suppose the President should issue an order to General Sheridan to reinstate Governor Wells and that Sheridan should send a response got up in about this fashion. It is thought Johnson might be able to see the point:

P. H. Sheridan, Absolute Monarch of Louisiana, to Andrew Johnson, President of the United States, Greeting: Your power is subject to the Constitution; mine is not—it is that of "an absolute military despotism"—(*vide* A. Johnson's message vetoing the reconstruction bill.) Over me, therefore, you have no authority. Only the power that created my "absolute monarchy" can terminate it. When the Congress of the United States by law terminates the "military despotism" which it created by law, I shall become a simple citizen. Until then, I remain, with assurances of my distinguished consideration,

Yours, etc., etc.
P. H. SHERIDAN,
Monarch of, &c.

A NEW KIND OF WOOL.—At a factory in Breslau, pine tree wool is now spun and woven into a kind of flannel which is largely used as blankets in hospitals, barracks and prisons, in that city and Vienna, with advantage, for pine wood drives away all disagreeable and noxious insects from the localities in which it is used. It can be used as stuffing for chairs, sofas and mattrasses in the same way as horse hair; and some qualities are woven into a sort of cloth of which garments of many kinds can be made.

The colored population of the State of New York is 44,708. It is estimated that the number of voters among them, in case equal suffrage is enacted, will not much exceed 5,000.

HOW TO SAVE MONEY.—We know of no better way to save money than to recolor garments, and thus make them practically as good as new. This can be done by using the celebrated FAMILY DYE COLORS of Howe & Stevens, which are equal to the best French, and ten times as cheap and convenient. Sold by Smith & Davis.

SO MOTE IT BE.—KOHN & FISHEL, No 91, Front street, have determined to be the cheapest house in the State, and as every person is complaining of hard times, have decided to make another deduction in the price of their fine and custom made clothing, furnishing goods, dry goods, etc. Call and examine their extensive stock and convince yourself that the above is the fact.

Buchtel's Photograph Gallery is the *only* establishment in Oregon that is thoroughly prepared to do *all* the *different styles* of work in the art. Photographs from card to life size. *The new cabinet cards, &c.*, &c. Small pictures enlarged (retouched in India ink—painted in water-colors or oil by Mrs. S. J. Rumsey. Pictures that are fading can be reproduced in this way. All negatives taken in this gallery will be carefully preserved, and additional copies had. I have now on hand a very large collection of negatives, the names of which are recorded alphabetically in a book for that purpose that can be seen in the reception room.

VANCOUVER ITEMS.—We are indebted to the *Register* for the following items:

Several runaway couples hailing from Oregon, who could not be married there, came over here this week and succeeded in making the riffle somehow or other, notwithstanding the stringency of our marriage laws. There is something "rotten in Denmark". Postmaster Cochran requests us to state that he is now prepared to issue money orders and also to pay all money orders made payable at his office.....A General Court-Martial, of which Brevet Colonel Reno will be President, is about to convene at this post for the purpose of trying the charge preferred against Lieut. Western, late commanding officer at Camp Logan. It will be remembered that nearly the whole force under his command deserted the service, alleging as a cause, cruel and improper treatment by the Lieutenant. These charges and others will be investigated.....The petition of Mrs Wilson for a divorce from her husband, Fred A. Wilson, will be heard to-day before Judge Hewitt, at chambers in Olympia. Messrs. Dennison and Garfield, in behalf of defendant, resist the petition. This is the case in which Judge Darwin of the Supreme Court of this Territory has figured so extensively. ..Three weeks from next Wednesday an exciting race will come off on Chas. Bird's track on the Fourth Plain, between Mr. Shea's mare and a small horse of Jared Van Vleet. The race is to be a single dash of a mile for $500 a side, with $200 forfeit, the balance to be put up on the day of the race.

CIRCUIT COURT—SHATTUCK, JUDGE.—Proceedings of Friday, July 19th.

State of Oregon vs. James Gill; on motion of District Attorney on account of the absence of witnesses for the prosecution, indictment dismissed and defendant discharged.

S. Coffin vs. Albert Kelly; judgment by default in favor of plaintiff, for want of answer, in the sum of $143 47, coin.

Thomas Carter vs Alex Hamilton, plaintiff granted leave to issue execution on judgment against defendant for $1,113 72 of date January 29, 1860, and interest accrued thereon.

Wm Brown vs. W. S. Ladd, et al, directors of school district No. 1, of Multnomah county, and O. B. Frambes, ... petition for writ of mandamus to compel said directors to admit the children of plaintiff into the free schools of said district to be taught therein, denied.

Bybee & Young vs. T. L. Burbank (horse race case); jury empanelled and testimony heard.

POSTAL MATTERS.—Q. A. Brooks, Postal Agent, hands us, yesterday, the following postal items:

Lewis Gaulter has been appointed Postmaster at Malade City, Oneida county, I. T.

W. F. Bartlet has been appointed Postmaster at Eagle Rock, Oneida county, I. T.

Peter J. Ridings has been appointed Postmaster at Oak Tidings, Clackamas county, Oregon.

A new Postoffice has been established at Lincoln, Polk county, Oregon, and Daniel J. Cooper appointed Postmaster.

A new Postoffice has been established at Pass Creek, Douglas county, Oregon, and William A. Mulvany appointed Postmaster.

Lewis Abrams has been appointed Postmaster at Fort Colville, Stevens county, W. T.

The Postoffice at Liberty, Benton county, Oregon, has been discontinued.

BURGLARY.—Just after dark, last evening, a man who ... "Maggie's Saloon" on First street, passed out at the rear door and being gone a considerable time, his absence was remarked. Upon this, the keeper of the ... went into her room which opens upon an alley leading from the rear of the building to the street, and the window of which was open. She immediately discovered that a valuable watch and a purse which had been left lying on a bureau near the window, were missing. It is supposed the man had taken note of the situation, had passed out to the rear, thence along the alley and had helped himself to the property and made off by way of the street. The man's dress and general appearance were described to the police who were on hand immediately in answer to an alarm whistle, and they were engaged last evening in investigating the matter.

OREGON IRON WORKS.—The Directors of the Oregon Iron Works, at their meeting on Thursday evening, decided to accept the proposition of the Governor for the sale of the old penitentiary building. The sum named is $6,000. The contract will probably be consummated to-day or early next week. The company intend to have their machinery in and at work within the next thirty days. The effect on property in that neighborhood will be, and already is, felt. Persons owning lots in that vicinity are already holding at much higher figures than before this transfer became known. The value of such property will really be much greater than before; whereupon the holders may congratulate themselves that "it is an ill wind that blows no good."

PACIFIC INSURANCE COMPANY.—As will be seen by the new advertisement of the Pacific Insurance Company, its capital stock has been increased to $1,000,000 and its assets to $1,238,054,91. This must certainly afford a basis for business operations, entirely safe to both insurer and insured. We have information that the business of the Company is in a highly prosperous condition and that its ability enable it to pay all losses promptly. The policy issued to the Oregon Iron Works, $10,000, was by this Company, to David McCulley, and was paid at once. Ladd & Tilton are the agents for Oregon and Washington Territory. The connection of those gentlemen with the company is sufficient guaranty of its safety as an insurer.

PASSENGERS FOR PORTLAND.—The following is the passenger list of the *Continental*, which sailed on the 17th for Portland: Mr Harward and family, Leo Wolff, Rev Bishop Thompson and wife, Miss Gatch, Mrs P Dickenson, J B Booth, H Vala, D Calaghan, J L Rowe, Mr B Lichenstein, Mr Lunday, Mrs Winberg, Miss J Kirkman, Mrs C C Poujade, P C Weeks, H Colt, Mr VanBrunner, O B Frambes and wife, R Gawanlock and wife, Miss Felix, Miss Dolores, Miss A Ramirez, G Stokes, Mrs W Maloney and four children, J Albert C Davidson and wife, N O B ..., and twenty in the steerage.

PORTLAND ACADEMY.—A public examination of the ... in the Portland Academy and Female Seminary will take place next week. The examination will begin on Monday afternoon and close on the afternoon of Thursday. On Thursday evening the exhibition will be held in the M. E. Church. Mr. Gatch, Principal of the Academy, is known as one of the very best and most efficient ... in Oregon, and it is expected that his classes will acquit themselves in a creditable manner.

A TOUGHLY CONTESTED SUIT.—One of our friends who heard the trial of the case of Bybee & Young vs L. T. Burbank, a suit to recover stakes on a horse race, alleged to have been delivered to the wrong party, says of it in a note, yesterday: "Third time case tried and juries failed to agree; prosecuted and defended with vigor, ardor, tenacity, ability, tact, scrutiny and technicalities unlimited." It is evidently a tough case, toughly contested.

ANOTHER GAME IN PROSPECT.—Mr. Buchtel informs us that the Clackamas Club has challenged the Occidental Club to the second game in the match between them, to be played at Oregon City on the 23d. The Occidental Club replies that it will play at Vancouver on that day or any other, but that, at present it will be very inconvenient for the club to go to Oregon City. It is not known whether any definite arrangement has been agreed upon.

BIG HEAD. Calling in at J. O'Connor's provision store yesterday, we found a case of big-head worthy of remark. It was a solid head of "Roman" lettuce, weighing *six and a half* pounds, every leaf of which was as tender as could be desired for table use. With it were three others ..., the aggregate weight of the four, being twenty-three and a quarter pounds. They were raised by a Mr. Garwood of this county. Beat them who can.

THIEVES HEARD FROM.—Capt. Strang of the *Okanagan*, says the stage driver to Monticello, reported having seen the thieves who stole George Ladd's clothing not long since at St. Helens. There were two of them. They had been seen a day or two before below Monticello and when the driver met them they were about eight miles from Monticello on the Olympia road. A telegram was sent to Pumphrey's to have them arrested.

WAITING TO TAKE A PICTURE.—Mr. Watkins, the celebrated photographist of scenery, has his instruments in readiness on the summit of the hill adjoining Robinson's Hill, on the south, to take a view of Mt. Hood and the surrounding scenery, whenever the weather will permit. Ever since his arrival here we have had almost continuous bad weather for the taking of such pictures.

AGRICULTURAL IMPLEMENTS AND MACHINES.—We noticed on the P. T. Co.'s wharf, yesterday, one of the Challenger threshers, consigned to Albany, and on the O. S. N. Co.'s wharf, another for Umatilla. On the latter wharf were, also, a considerable lot of agricultural implements for various places up the Columbia, all from Knapp, Burrell & Co.

PETITIONS FOR REMISSION OF PENALTY.—Judge Deady, yesterday, heard petitions from Mr. Collins and from Mr. ... for the remission of penalties adjudged upon conviction for violating the revenue law, in the sale of insufficiently stamped matches. The petitions will be forwarded with the evidence, to the head of the proper department.

PROCURE YOUR LICENSES.—Charges are entered upon the docket of the City Recorder, daily, against parties for selling liquor without license. The warnings of the last week do not seem to have had the effect to induce all parties to come to time. Delinquents will have costs to pay, unless the matter be attended to.

THE RIVER.—The Willamette is falling steadily and for the last few days rather rapidly. The lower floor of the P. T. Co.'s wharf is now only about a foot and a half under water, and should the river continue falling as rapidly as for the last day or two, the wharves will be out for an airing early next week.

PETITION IN BANKRUPTCY.—James Burk filed his petition in bankruptcy, yesterday. In the absence of a Register, these petitions are made to the U. S. District Judge in this case, after due inquiry, Judge Deady issued a warrant directing the U. S. Marshal to give the proper notice to creditors.

THE CASCADE.—This vessel arrived from Victoria, yesterday morning, with 320 bbls lime for McCraken, Merrill & Co., 10 bbls. dog-fish oil and 75 cases do refined in 10 gallon cans, for Everding & Beebe, and a lot of lime rock for the Oswego Iron Works.

INJUNCTION.—Judge Deady, sitting as U. S. District Judge, yesterday, received an application for an injunction in the case of Davis vs H. O. and J. N. Victor. A temporary injunction was granted the plaintiff and the hearing set for Tuesday, the 23d.

THE ORIFLAMME.—We have news that the *Oriflamme* reached San Francisco yesterday morning, after experiencing an unusually pleasant passage.

BASE BALL PRACTICE.—The members of the "Young Pioneer" B. B. Club are requested to meet at their grounds opposite the Gem Gardens, for practice, this (Saturday) afternoon at one o'clock.

WILLAMETTE FREIGHTS.—The *Senator's* freight yesterday, was immense, to wit: 4 ... sks flour, consigned to J. D. Biles, Esq., for family use. It was all hauled away, during the afternoon, on one truck.

THE HEAD OF THE CONGO.—Johnny Graham, the chief of the Congo Troupe of Minstrels arrived from Monticello yesterday, having dissolved his connection with that company.

A BISHOP COMING.—We learn by the telegraphic dispatches that Bishop Thompson, of the M. E. Church, may be expected to arrive here by the *Continental* which sailed on the 17th.

BRIDGE BROKEN DOWN.—Mr. Jamison, expressman to Forest Grove, reports that the bridge near Hillsboro, known as Wilkins' bridge, was broken down on Thursday.

SECRETARY MAY AND BARMAN BROS.—Secretary May has a splendid Geneva clock, with which he regulates the State Department. Barman Bros. regulate the State Department with custom made clothing without a Geneva clock.

BASE BALL.—The First Nines of the Pioneer and Wide Awake Base Ball Clubs will meet for practice this afternoon at 5 o'clock, sharp.

MR. CHARLES J. OPPENHEIM, Manufacturer of Cloaks, New York, says he uses the Grover & Baker Machines in the principal part of his business, and prefers them to any machine he has used. He has had Grover & Baker's and Wheeler & Wilson's in use eight years. W. Currier & Co., Agents, 103 Front street Portland.

IT WORKS TO PERFECTION.—MRS. WINSLOW'S SOOTHING SYRUP, for children teething, is perfectly harmless. It produces natural, quiet sleep, by relieving the child from pain, and the little cherub awakes as "bright as a button." It cures wind colic, and regulates the bowels—gives rest to the mother and health to the child. Offices, 215 Fulton street, New York, and 205 High Holborn, London, England. Hostetter, Smith & Dean, Agents for the Pacific Coast.

VALUABLE AND CONVENIENT.—"Brown's Bronchial Troches" are widely known as an admirable remedy for Bronchitis, Hoarseness, Coughs, and other troubles of the Throat and Lungs. They are of great value for the purposes for which they are designed, while they are usually and pleasantly efficacious, they contain no hurtful ingredients, but may at all times be used with perfect safety.—*Boston Recorder.*

FIRST NATIONAL BANK OF IDAHO—BOISE CITY, I. T.—Organized March 11th, 1867, (with circulation) under Act of Congress, approved June 3d, 1864. Authorized capital $500,000. Paid up capital, $100,000. B. M. DuRell, President. C. W. Moore, Cashier. Collections of Notes and Accounts on the principal places in Idaho Territory promptly attended to. Exchange for Coin or Currency this Bank can be purchased of Ladd & Tilton, Portland, Oregon.

PERFECTLY ENRAPTURING.—Such were our feelings as we stepped into the Music and Art Gallery of W. T. SHANAHAN, on First street, a few days since, and listened to the delightful tones and harmony which came from one of Mason & Hamlin's Cabinet Organs. From the soft breathing flute tones to the thundering bass of the pipe organ, all was equally free and sweet. And why is it other makers cannot produce instruments like these? Mason & Hamlin were the first to introduce the Cabinet Organ, and have gained such world-wide notoriety that it requires the work of two large factories to supply the demand for these valuable instruments.

A SPLENDID INSTRUMENT.—We saw, yesterday, at J. L. Parrish & Co's something new in the way of an organ—a French instrument called the Organ Harmonium—invented by Alphonse Rodolphe. It is a very considerable modification of the organ as we have them from the American manufactories. It is provided with sixteen stops, each of which exercises a distinct and peculiar effect upon the tone. The bass stops are the Forte, Jeu Doux, (soft, sweet) Basson, Clarion, Bourdon, English Horn; the treble stops are Expression, Tremolo, Scotch Bagpipe, Flute, Clarionette, Fife, Hautbois, Voix Celeste, Forte, and Knee or Full Expression. The effect of these stops in changing the tone is most surprising. For instance: from the flute to Voix Celeste with Full Expression, the tone changes from what sounds precisely like a soft flute, to the full grand harmony which we would expect from an Angel choir—what the name imports. The Key-Board is movable and can be adjusted to any key, to any instrument, or to the voice of any singer. Other changes are no less surprising. The instruments are of the most perfect workmanship and of the highest finish, have taken the first medals at all the great European Expositions. The prices range from $175, to $500. Persons in want of an instrument should call and see them, for it is impossible to get a correct idea of them, except from personal inspection. J. L. Parrish & Co., are sole agents for the Pacific coast.

If, as the old adage declares, "Health is the Greatest earthly Blessings," then every effort to preserve it pays well.

DRAKE'S PLANTATION BITTERS

Have been of great service in making people healthy, and keeping them so. They should be found in every household.

They give tone to the Stomach, vigor to the body, and remove dark doubts and unhappy feelings from the mind. They relieve pain and fortify the whole system against the attacks of disease.

There is nothing better to take "for the Stomach sake" than the PLANTATION BITTERS.

They cure Dyspepsia, Heartburn, Indigestion, Drowsiness, Headache, Pain in the Side, Liver Complaint, and Rheumatic Pains, with magical power.

A good effect is felt at once upon making the first trial. No change of diet is necessary. Eat the best you can get and all you want. Follow our directions and you will soon feel

WELL, STRONG AND HEARTY.

A great many side hits are being made at the Plantation Bitters, by a score or two of disinterested friends who have endeavored to imitate or counterfeit them. It's all of no use. The people won't be imposed upon. The Plantation Bitters are increasing in use and popularity every day, and "that's what's the matter." They are the same sized bottle, and made just as they were at first, and will continue to be, or we shall stop making them.

They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhoea, Cholera and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.

They are the best Bitters in the world. They make the weak strong, and are exhausted nature's great restorer. The Recipe and full Circular are around each bottle. Clergymen, Merchants, and persons whose sedentary habits induce weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, liver complaint, constipation, &c., will find *immediate* and permanent relief in these Bitters. But above all, they are recommended to weak and delicate females and mothers.

They are sold by all respectable merchants. See that each bottle has our private United States Stamp over the cork and steel-plate side label.

Beware of refilled bottles. See that the stamp has not been tampered with. Any person pretending to sell Plantation Bitters by the gallon is a swindler and impostor, and should be immediately reported to us.

Mustang Liniment.

OVER A MILLION DOLLARS SAVED!

Gentlemen:—"I had a negro man worth $1,200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure."
J. L. DOWNING.
Montgomery, Ala., June 17, 1859.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic. J. W. HEWITT
Foreman American, Wells, Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment.
Gloucester, Mass., Aug. 1, 1865. ED. SEELY."

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered. Families, livery men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steel plate engravings, bearing U. S. Stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone-plate label. *Look closely!*

Lyon's Katharion.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon prematurely bald heads.
This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.
E. THOMAS LYON, Chemist, N. Y.

Lyon's Extract Ginger.

LYON'S EXTRACT OF PURE JAMAICA GINGER—for Indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity make it a cheap and reliable article for culinary purposes. Sold everywhere at 50 cents per bottle. Ask for "LYON'S" PURE EXTRACT. Take no other.

CAUTION—See that the private U. S. Stamp of Demas, Barnes & Co. is over cork of each bottle. None other is genuine.

Lyon's Flea Powder.

DEATH TO FLEAS.—It is will known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of fleas, ticks, bed bugs, roaches, &c., that it is perfect poison to the insect tribe, but strictly harmless to the human species and domestic animals. The genuine has the signature of E. LYON, and the private stamp of DEMAS, BARNES & CO. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

HOSTETTER'S
CELEBRATED STOMACH BITTERS!
A Pure and Powerful Tonic,
Corrective and Alterative, of wonderful efficacy in Diseases of the
STOMACH, LIVER AND BOWELS.
PROTECTIVE PROPERTIES.
Prevents Fever and Ague and Billious Remittent Fevers; Fortifies the System against Miasma and the evil effects of unwholesome water; Invigorates the organs of digestion and the bowels,
Steadies the Nerves and tends to Prolong Life.
REMEDIAL PROPERTIES.
Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or
PRODUCED BY SPECIAL CAUSES.
NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant; but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants.
The weak stomach is rapidly invigorated, and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.
Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes.
As a Genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.
Last, but not least, it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day.

NEWSPAPERARCHIVE®

The Indian War—Story of an Escaped Captive.

A dispatch from Fort Sedgwick, Nebraska, dated June 1st, to the New York *Express*, contains the following:

A lad of seventeen, named George Miller, has just made his escape from the savages, after a captivity of two years. In June, 1865, while he was traveling across the Plains with his uncle and aunt and their two children, the Indians fell upon the party and massacred all except this boy, whom they carried off with them. They kept him a year, and then he was stolen from Chimney Rock by the Cheyennes, with whom he remained until the attack on Fair Now Station, the other day, following them as they moved their camps hither and thither over the Plains. While the Indians were plundering and destroying the Station, he seized the opportunity to escape, and, being mounted on a fleet horse, made off in the direction of Wisconsin Branch. He was soon discovered and pursued, but the superior speed of his horse enabled him to get clear, though he was repeatedly shot at. According to his statement there are five white female captives in the Cheyenne camp, one of whom is the wife of a physician residing in Council Bluffs, Iowa. These women often receive brutal treatment. He himself has been very roughly used, as the scars on his body abundantly prove. He was sometimes stripped naked, stretched over a log and flogged with a heavy whip. He was the subject of strict surveillance, and was never allowed to hold any communication with the other captives. White men have been frequently in the Cheyenne camp, bartering arms and ammunition for buffalo robes and peltry. The statement of this youth coincides with our previous reports of the vigilance of the Indians. A line of pickets is now constantly kept on the bluffs, overlooking the great Platte Valley route.

Not a day passed but tidings were brought to camp of the progress of the railroad, the construction of earthworks around McPherson and Sedgwick, and the movements of the military, and their number. The traders have completely supplied the savages with powder, and they have several Spencer and Burnsides rifles. Their first attempts to get acquainted with the use of those weapons resulted in the discharge of several of the metallic cartridges. They tried to force them into the rifles through the muzzles. Councils have been held with great solemnity, at which the principal chiefs of both hostile tribes were present. Some of the Kiowas and Arrapahoes also joined in the conclave, and the policy of a general attack on the Platte Stations was discussed. The boy, from what he heard, states they contemplate doing so about the middle of June. The Cheyenne force south of the Platte is estimated at 1,500.

MYTHOLOGY FOR CHILDREN.—Rev. George Cox, an English writer, has performed a useful service in the preparation of a "Manual of Mythology for Children." His system of interpretation is very simple and admirably adapted to the comprehension of the young. It is explained by himself, very briefly and clearly, in the following passage:

"So long as men remained in the same place, there was no fear that the words which they spoke would be misunderstood; but as time went on they were scattered, and some wandered to the south, and some to the north and west; and so it came to pass that they kept the names which they gave to the sun and the clouds and all other things, when their meaning had been almost or quite forgotten. In this way they still spoke of Phœbus as loving Daphne, after they had forgotten that this meant only the 'Sun loves the Dawn.' So the name of the dew had been Procris, and it had been said that the Sun killed (dried up) the Dew as he rose in the sky; but now Kephalos (Cephalus) became a man, who, without knowing it, killed a woman named Procis, whom he loved. Instead of saying any more that the moon came to see the sun die, they said that Selene came to look on Endymion, or that Antigone soothed Œdipus in his last hour. Instead of saying that the sun was the child of darkness, they said that Phœbus was the son of Leto; and in place of the fairy network of clouds they spoke of the robe which Helios gave to the wise maiden Medea."

He explains still further: "Men of the primeval times, knowing very little about themselves, and nothing at all of the things which they saw in the world around them, fancied that everything had the same kind of life which they had themselves. In this way they came to think that the sun and stars, the rivers and streams, could see, and feel, and think, and they shone or moved of their own accord. Thus they spoke of everything as if it were alive, and instead of saying, as we say, that the morning comes before the sunrise, and that the evening twilight follows the sunset, they spoke of the sun as the lover of the dawn or morning, who went before him, longing to overtake her, and as killing her with his bright rays, which shone like spears. * * So, too, when the sun set, they said that the dawn, with ... and tender light, had come to soothe her ... husband in her dying hour." ... strongly upon the gain to morality ... estimate of our race obtained by this ... of the mysteries of mythology. ... which seem coarse or ugly, he says, ... because the real meaning of the ... has been long lost or wholly lost. Œdipus ... we are old, ... their parents, but ... because the sun is said to kill the darkness ... seems to ... So, again, it ... that the sun was united in the evening ... light from which he rose in the morning; ... other story it was said that Œdipus became the husband of his mother Iocaste, and a ... story was built up on this notion. But, as you see, none of these fearful or disgusting stories were ever made on purpose. No one ever sat down to describe gods or great heroes as doing things which all decent men would be ashamed to speak of. There can scarcely be a greater mistake than to suppose that whole nations were suddenly seized with a strange madness, which drove them to invent all sorts of ridiculous and contemptible tales, and that every nation has at some time or other gone mad in this way."

THE BATTLE-FIELD OF SADOWA.—A foreign journal says that Sadowa is being disforested. It will be remembered that this wood was the key to the battle of Kœnigratz, on the holding of which for a long time hung the victory or defeat. It is now being stripped of its timber by Austrian wood-cutters, and the writer believes that this is done to destroy all traces of a locality that must forever remind them of a great national humiliation. The trunks of the trees, as they fall before the axe, are found thickly studded with bullets, and scores of *gamins* are on the ground, industriously extracting them from their ligneous lodgment. The writer, who had himself been present at this decisive action of the two great contending armies, describes some singular emotions, to which the scene of the disforesting gave rise. By the sharp click and dull thud of the axes, the crash of the falling trees, the loud talk of the wood-cutters, the shout and noisy disputes between relic-hunters and rival appropriators of spoil, combined with the smoke and blaze of their bivouac fires, he was reminded of the battle itself. And at his feet lay skulls and skeletons of Austrians as well as Prussians, trampled and turned up out of their shallow interment—here and there in scattered groups, and sometimes large collections—giving it the appearance of some vast Golgotha. The writer ingeniously adds that the scene produced a sad, singular impression upon his mind.

REBEL LEADERS.—Col. John W. Forney writes from London under date of May 29th that at the hotel in that city (Langham Hotel) where he is stopping, may be frequently seen John C. Breckinridge, of Confederate Government memory, that he has no intention of trying to struggle against fate by attempting to re-establish himself at home; and that he regards the claims of rebels in the South to their old political "rights" under the Constitution as the coolest piece of assurance imaginable. Judah P. Benjamin is practicing law in London, and is the counsel of C. K. Prioleau of Liverpool, the chief financial manager in England for the Confederacy. Benjamin also officiates as American editor of the London *Telegraph*. He never intends to trust his neck on this side of the Atlantic. George N. Sanders is in London, "dead broke," financially as well as politically, and is in process of grinding through courts of bankruptcy. Wigfall is also in London, collecting lists of owners of Confederate cotton bonds, sanguine in the belief that the rebs were entitled to belligerent rights during the late war, and that the United States Government will be compelled in the end to assume the payment of the bonds. Toombs was also recently in London, proud and poor, but in him no one would have easily recognized the Senatorial Thunderer of the old days before the war.

If one should give me a dish of sand and tell me there were particles of iron in it, I might look for them with my eyes, and search for them with my clumsy finger, and be unable to detect them; but let me take a magnet and sweep through it, and how it would draw to itself the most invisible particles by the mere power of attraction! The unthankful heart, like my finger in the sand, discovers no mercies; but let the thankful heart sweep through the day, and as the magnet finds the iron, so it will find in every hour heavenly blessing; only the iron in God's sand is gold.

The Republican State Convention of Iowa will consist of 1,010 delegates.

Heliotypography—A Wonderful Discovery.

There is a new word added to the vocabulary by the necessities of this advancing age and the discoveries of modern science. Ever since the discovery of the Daguerre process it has been an object of earnest pursuit to find a method of using the photographic art for the production of metallic type by which to print, in the ordinary letter-press style, the pictures made by the sun. Scores of inventions have been made, without final success. We are at length able to say that the desideratum has been accomplished, and the Heliotype Company are prepared to work with the aid of the sun as rapidly as publishers can desire in the production of sun-types.

It is not claimed for this process as yet that it will do everything that is desired. But it is the beginning of great things, and we confidently look for the day when it will be so perfected that the scenes of daily life, occurrences in our streets, public meetings, processions, and similar events may be photographed and the type used in the editions of illustrated newspapers without the intervention of an engraver or woodcutter.

At present the inventors wisely propose to do no more for the public than they are able to do perfectly. To show what their ability is we may state the results of our examination. A copperplate map of France, for example, was handed to them, from which they were to produce a type or plate suited for letter-press work. Within twelve hours they delivered the type, a solid plate, from which we could easily print a hundred thousand copies on the press of the *Journal of Commerce*. The copy printed from this type was fully equal in every respect to the original, and an exact *fac simile* of it. An elegantly designed ornamental card, with fanciful letters, made by the hand of a skillful artist, being placed in their hands, they in a few hours produced a type from which the card can be printed to any extent desired. An ordinary wood engraving is reproduced in the same manner. Music is admirably and perfectly copied. One of the merits of the invention consists in the ability to change the size of the picture or page to be reproduced. Thus music of the ordinary piano size can in a few hours be reprinted in small quarto, octavo, or any other desired size. A map six feet square can be reduced, and the type made to print an illustration for an ordinary volume. We have now before us specimens of reproductions of Doré's bible illustrations, which are astonishingly perfect. More marvellous still is a page of the London *Illustrated News*, reproduced in a few hours in a metal plate, half the original size, engravings and letter-press alike a reduced *fac simile* of the original, the proofs from which will surprise any printer. There is no reasonable doubt that the process will be so perfected that it would be easy to republish in this country any European illustrated newspaper within twenty-four hours after the receipt by steamer.

We have been careful not to claim too much for this invention in its present working condition. The company can do all kinds of map work, outlines, and plans of artists and engineers, many styles of engravings, especially those which deal in sharp outlines and bold, vigorous work, music, and many other kinds of illustration. They may already do much more, but this is enough to justify our assertion that heliotypography is a necessary word in the language.

In one department the Company has achieved a startling triumph, namely, in the reproduction of rare old tracts and books. Many gentlemen having such treasures in their libraries, desire to print private editions for their friends. By this process the type for such editions is furnished in absolute *fac simile* of the original, and the new edition can only be distinguished from the old by the paper on which it is printed.—*N. Y. Journal of Commerce.*

WESTERN INDIANS.—The Chicago *Republican* estimates that the number of Indians in the States and Territories lying west of a line formed by the western boundary of Minnesota, Iowa, Missouri and Arkansas, is about 275,000, distributed as follows:

Washington	14,800
Oregon	10,200
California	30,000
Arizona	27,000
Nevada	8,500
New Mexico	27,000
Utah	16,400
Idaho	9,500
Montana	11,634
Dakotah	25,400
Colorado	10,700
Nebraska	17,200
Kansas	11,000
Indian Territory	47,396

CHEAP AND SIMPLE.—The *Scientific American*, which is supposed to know everything, gives the following directions for making a cheap ice pitcher: "Place between two sheets of paper (newspaper will answer, thick brown paper is better) a layer of cotton batting, about half an inch in thickness; fasten the ends of paper and batting together, forming a circle; then sew or paste a crown over the end, making a box the shape of a stove pipe hat, minus the rim. Place this over an ordinary pitcher filled with ice-water—making it deep enough to rest on the table so as to exclude the air—and the reader will be surprised at the length of time his ice will keep, and the water remain cold after the ice is melted."

FINANCE AND COMMERCE

WEEKLY REVIEW.

PORTLAND, FRIDAY, 2 P. M.,
July 19, 1867.

Gold in New York, for several days has exhibited an upward tendency, but has been variable in price. The market is evidently being manipulated by speculators. On the 17th it opened at 140½, closing at 130¾. On the 18th, yesterday, it opened at 139¾ and closed at 140.

In San Francisco, yesterday, brokers were buying legal tenders at 71¾ and selling at 72¼.

Jobbers of produce have done a fair business, during the past week considering the general condition of the country. The shipment of flour per *Oriflamme* was the smallest of the season. The price in San Francisco does not encourage the sending of anything outside of orders. From Victoria, there have been orders far beyond the capacity of the *Fideliter* to carry. The stock on hand is not large. The Imperial and Standard mills are both stopped at present, but are expected to resume work in a few days. Receipts from the interior mills have not exceeded the current consumption in this city, during the last week. Prices are not likely, however, to change for the better.

The demand for hams has been active during the week. The market is almost entirely bare and prices have advanced materially. One lot of extra choice sold yesterday for 15 cents. Another lot of retrimmed and resmoked, is held at 18 cents, with almost a certainty of realizing sales. These are exceptional lots, as to quality, and do not govern the market. The ruling rates for hams as received from the country may be stated from 11c to 15c, as outside prices.

Side bacon is also in better demand at one cent advance per pound.

Dried apples of good quality and well put up are firm at 11½@12½c—an advance of 1½c.

In agricultural goods there are no changes to note.

The hardware trade has been unusually dull. Nails are quoted at $7, but this is an outside price; they can be bought in large lots for a discount on quotations. Brads and finishing nails have fallen off 50 cents per keg.

Building materials—we quote Santa Cruz lime 25 cents higher. We add to our list, San Juan lime, at $3 50, and calcine plaster, at $7.

In groceries, trade has been lighter than for two or three weeks. There are no material changes in this market.

Domestic Produce Market.

PORTLAND, July 19, 1867.

In this market little business has been done during the week. The arrivals from the country have been unusually light. There is considerable inquiry for bacon and hams at the figures below. Dried apples and oats are also firm at advanced quotations. There are no other changes. Wool is dull and few of the dealers are willing to pay over 20 cents. Of dry hides, only the best bring the price quoted.

The apparent discrepancy between the prices offered by buyers and those asked by jobbers, for hams as indicated in this report, is explained thus: Most of those offered from the country are badly trimmed, and in many cases otherwise in bad condition. Dealers are compelled to retrim and resmoke them, both of which processes result in waste and expense. Many hams are proved to be altogether worthless, and are thrown away. Not till they have gone through the dealer's process of renovation, are they fit to be offered in any foreign market. The cost to the dealer of thus fitting hams for market is very near the difference between the jobbing and the farmer's prices as quoted.

Medical.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, Such as Gonorrhœa, Gleet Stricture, Syphilis in all its forms Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cured for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans

Seminal Weakness.

Seminal Emissions, the consequence of self abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

TO THE LADIES.

The various complicated and distressing diseases incident to females, treated with eminent success. Such as Suppressions, Irregularities, Whites, Falling of the Womb, Tumors, all Urinary Diseases, Nervous Debility, Painful or Difficult Menstruation, Barrenness, etc, will be speedily cured, without poisonous drugs, injuries or unpalatable medicines of any kind. Have no delicacy in calling, no difference what your troubles may be. The afflicted are cordially invited to call and satisfy themselves.

Persons calling at Dr. Gibbon's office or sending for packages of medicines, may rely upon his assurances of confidential secrecy with implicit faith, and expect no more than to be charged with a fair, and mutually satisfactory remuneration for services rendered, considering the circumstances and difficulties of cases, rather than a too prevalent and selfish practice of extortion among quacks and pretenders.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Persons at a distance may be CURED AT HOME, by addressing a letter to Doctor Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.

Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*

DR. HENLEY'S

Fountain of Life!

THE

GREAT BLOOD PURIFIER!

IN EVERY PROGRESSIVE SCIENCE PERIODS ARRIVE when a new direction is imparted to its course. These epochs proceed from discovery of how facts shedding a light which changes the whole aspect of the science. The present is an epoch of this kind, and this Great Remedy, now offered to the public, in connection with the theory on which it is based, is destined to effect an entire revolution in the treatment of the diseases of

SCROFULA AND KING'S EVIL!

by eradicating the disease entirely from the blood. The FOUNTAIN OF LIFE is composed entirely of vegetable extracts; it contains no Mercury or other mineral substance.

The Proprietor and Discoverer of this Sovereign Remedy CHALLENGES THE WORLD to furnish anything, from the days of Æsculapius down to the present time, in the arcana of Medical Science, which can vie with or excel the intrinsic properties of this Great Blood Purifier. Its value has been tested with the happiest effect in the most obstinate cases of Scrofula, that baffled the skill of the most eminent physicians in the world. No matter what form the dreadful disease of SCROFULA and KING'S EVIL may have assumed, it can in no way be more safely and certainly arrested in its progress than by HENLEY'S GREAT BLOOD PURIFIER. Thousands have been swept into their graves, who had they made a timely use of the FOUNTAIN OF LIFE, might now be enjoying the blessings of life and health. It requires an article of real merit and intrinsic value to sustain itself. During the stern ordeal of public experiment the FOUNTAIN OF LIFE has stood the test trial, and not been found wanting.

Dr. HENLEY guarantees to CURE any case of SCROFULA or KING'S EVIL in the world, and eradicate the disease entirely from the system, or no charge made—provided they will secure him his pay when they are cured.

FOR REFERENCE:

I would refer you to L. L. Peck, of Portland, Oregon, and numbers of others, as to what a miraculous effect it had in a short time, in cases that had baffled the skill of physicians for years.

DR. WM. HENLEY, Portland, Oregon.
